PROFILE

B.E. graduate in Artificial Intelligence & Machine Learning with hands-on experience in data preprocessing, predictive modeling, and end-to-end ML pipeline development. Built classification models that improved accuracy by up to 20%, reduced data-cleaning time by 35%, and delivered actionable insights through EDA and feature engineering. Seeking an entry-level Data Scientist or ML Engineer role.

SKILLS

Languages: Python, SQL, C, C++, Java, HTML, CSS

ML & AI: Regression, Classification, Clustering, Computer Vision (OpenCV), NLP, Generative AI, Feature Engineering, Model Evaluation

Data Science: EDA, Data Preprocessing, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Technologies: Flask, MongoDB, Git, GitHub, Jupyter Notebook, VS Code, Google Colab, Anaconda, Microsoft Office

AI / LLM Tools: ChatGPT, Claude, Google Gemini, GitHub Copilot, Cursor AI, NotebookLM, Canva AI, Perplexity AI

LANGUAGES

- English
- Kannada

STRENGTHS

Effective Communicator, Team Collaborator, Problem Solver, Quick Learner, Technical Documentation

INTERESTS

- Exploring AI Tools & Technologies
- Building ML Projects
- Continuous Learning & Upskilling

PUNITH KUMAR A B

Entry-Level Machine Learning & Data Science | Python, SQL, Scikit-learn, Flask

PROFESSIONAL EXPERIENCE

Data Science Intern

Prinston Smart Engineers – Davanagere, India | Jan 2026 – May 2026

- Engineered end-to-end data preprocessing pipelines using Python (Pandas, NumPy), reducing data-cleaning time by ~35% and improving dataset quality for downstream ML tasks.
- Developed and evaluated 3+ classification models (Logistic Regression, Random Forest, SVM), improving predictive accuracy by up to 20% over baseline.
- Performed exploratory data analysis (EDA) on structured datasets, identifying patterns that boosted model performance by 15% through improved feature selection.
- Delivered detailed project reports and model evaluation summaries to senior mentors, translating technical findings into actionable business recommendations.
- Built a medical cost prediction system (Random Forest & Linear Regression) with engineered features on age, BMI, smoking status, and region, improving prediction reliability by ~18%.

Tools: Python, Scikit-learn, Pandas, Matplotlib, Jupyter Notebook

PROJECTS

Smart Vision Assistant for Visually Impaired Persons

Python, AI, Machine Learning, Computer Vision, Deep Learning

- Major Project: Developed an AI-powered assistive system to help visually impaired users understand their surroundings.
- Applied computer vision and deep learning techniques to identify and interpret objects and scenes through an accessible interface.

MediScan AI

Python, AI, Machine Learning, Deep Learning, Flask, HTML, CSS, JavaScript

- Developed MediScan AI, a web-based AI-powered medical screening platform that demonstrates preliminary health-risk assessment.
- Built brain tumor image analysis and heart disease risk prediction modules; designed for educational and demonstration purposes only.

HumanTalk AI

Python, AI, Machine Learning, NLP, Flask, HTML, CSS, JavaScript

- Developed HumanTalk AI, an AI-powered interview platform for structured interviews and more efficient candidate screening.
- Implemented AI-assisted interviews, real-time candidate evaluation, reporting, and HR handoff with human oversight in hiring decisions.

SQL to MongoDB Converter Using Flask

Python, Flask, SQL, MongoDB, HTML, CSS

- Mini Project: Developed a Python and Flask web application that converts SQL database structures and queries into MongoDB-compatible formats, demonstrating backend development and SQL-to-NoSQL integration.

Additional Projects: U-Turn Accident Prevention System, Automatic Street Light System

EDUCATION

B.E. in Artificial Intelligence & Machine Learning

GM Institute of Technology, Davanagere | Aug 2022 – May 2026
CGPA: 8.0/10

PUC (Science)

Science Academy PU College, Karnataka | June 2020 – Apr 2022
Percentage: 73.16%

CERTIFICATIONS

- AI Skills Passport — EY & Microsoft (2025)
- Generative AI for All & Prompt Engineering for ML — Infosys Springboard (March 2025)
- Power BI Data Analytics Workshop — OfficeMaster (April 2025)
- SQL Roadmap Certification — OneRoadmap (May 2025)
- AI For All – AI Aware — Intel & Ministry of Education, India (2025)
- AWS Solutions Architecture Job Simulation — Forage (Oct 2025)
- Deloitte Australia Cyber Job Simulation — Forage (Sep 2025)
